SUMMARY

Creative and detail-oriented web designer with experience in designing user-friendly websites and digital interfaces. Proficient in HTML, CSS, JavaScript, and responsive design principles, I have a passion for creating visually appealing and highly functional websites that enhance user experience. With a strong foundation in design tools and a collaborative mindset, I am committed to delivering tailored solutions that align with clients' needs and drive engagement.

WORK EXPERIENCE

Best SMM- Freelance

JAN-2024 PRESENT

- Collaborated with Best SMM, a leading Indian social media marketing company, to develop their website.
- Designed and implemented a secure payment gateway integration.
- Developed a user-friendly login page with authentication features.

Brisk Group

Feb 2022 - Dec 2023

- Developed the entire website for Brisk Group, a pest control company in India, using HTML, CSS, and JavaScript.
- Designed a clean, responsive interface to enhance user engagement and accessibility
- Implemented cross-browser compatibility to ensure consistent functionality across various platforms.

KPCC Office - Political Party

Jan 2024 - Aug 2024

- Analyzed and interpreted large datasets to identify trends and insights supporting political strategies.
- Developed data-driven reports and visualizations to assist in decision-making for campaign planning and voter outreach.
- Collaborated with the political team to create models predicting voter behavior and election outcomes.
- Implemented data collection methodologies to track campaign progress and performance.
- Ensured the accuracy and security of sensitive political data.

Jupiter Upi App - Freelance

May - 2024

- Designed a credit card interface for developers, ensuring smooth and seamless interaction for users.
- Utilized HTML, CSS, and JavaScript to create an intuitive and responsive design.
- Collaborated with developers to understand requirements and implemented a user-friendly layout.
- Focused on optimizing design elements for performance and usability across multiple devices.

EDUCATION

Diploma in Web Designing
Coders Academy

Aug 2016 - Oct 2019

Ethical Hacking
Avodha Hackers Academy

May 2014 - May 2016

ADDITIONAL INFORMATION

I have a strong foundation in Python programming and can create various projects utilizing the necessary libraries, including developing Telegram bots. Additionally, I possess skills in SQL injection, which I apply for cybersecurity purposes, ensuring robust security measures in web applications.
